COMPANY PROFILE

Contact Us

International Components Corporation (ICC) has been supplying components to the Electronics Industry for over 40 years. Our company offers a diversified range of products that fall into the following three categories:

- Intervox? - Audible Devices
- Intercap -Capacitors
- Intersemi ? Semiconductors

?

The Intervox? and Intercap product lines were designed primarily for use in original equipment manufacturing (OEM). Our objective is to supply high quality, reliable components to these manufacturers and to provide the design engineer with a wide variety of components for their new product designs.

Our sales and engineering departments are located in Bohemia, New York. In addition, we have established a network of Industrial Distributors throughout the United States and Canada. To assist our customers and distributors with "JIT" delivery programs, our Bohemia, New York location maintains component inventories necessary to meet their needs and the market's demand.

We are cognizant of the ever-changing nature of the electronics business and endeavor to keep up with the Industry's new designs. Furthermore, we maintain strict quality standards, which are accepted worldwide.
