

INTERCAP OVERVIEW

Contact Us

Intercap offers an extensive range of capacitors designed and manufactured to provide the ultimate in quality and precision at remarkably competitive prices. Designed primarily for OEM applications, they are available with radial or axial leads and are packaged in bulk pack, tape and reel, ammo pack, and snap-in connectors.

Choose the specifications and mounting you require without having to compromise with alternatives.

- Radial Lead Aluminum Electrolytic PD
- General Purpose
 - Wide Temperature Range
 - Low Leakage, Low Impedance, Low ESR
 - Non-Polarized
 - Switching Power Supplies with Snap-In Connections
- Polyester Film (Radial Lead) - EM Series
- Metalized Polyester film (Radial and Axial Lead) PMG and YM Series
- Ceramic Disc and Ceramic Chip) CD and CCM Series
